

Moisture detector processor

5501-M

Moisture detector processor, brown

Specifications

Operating voltage	Lithium battery (included)
Battery lifetime	10 to 15 years (estimated)
Alarm output	NC, open as long as wet
Alarm delay	10 sec
Dimensions (L x W x H)	116 x 70 x 35 mm
Max no of sensors	4
Connections	Screw terminals
Color	Mahogany

Ordering Information

5501-M Moisture detector processor

- Detects presence of water and non-flammable conductive liquids
- No external power required
- Sensor circuit totally isolated by optical couplings
- Up to 4 sensors per 5501 moisture processor
