NetworX
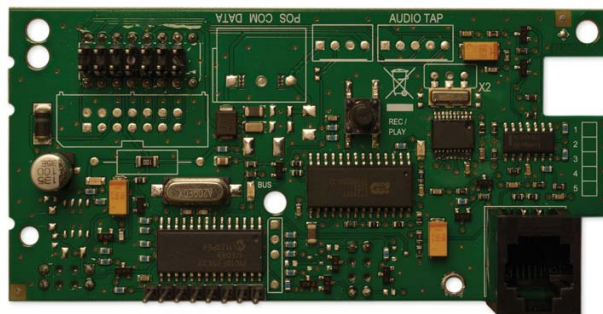

NX-535N-V3

Voice speech plug-on module for NetworX V3 panels

Voice speech module

The voice module provides a method of reporting alarm events to designated phone numbers using pre-recorded voice messages. The messages are transmitted over a telephone line when an alarm event occurs on the control panel.

Standard Features

- Leader voice message to introduce alarm call
- Adress voice message to identify alarm premises
- Up to 15 voice alarm messages
- Kiss-off voice message to acknowledge alarm
- Easy to record voice messages with any normal handset
- Supports DTMF

NX-535N-V3

Voice speech plug-on module for NetworX V3 panels

Specifications

Operating power	13.8 Vdc via NetworX bus
Current consumption	
quiscent state	18 mA
alarm state	20 mA
Dimensions (W x H x D)	102mm x 50mm x 24mm
Environmental	
Operating temperature	0 to 40°C
Humidity	Max 93% non condensing
Weight	0.036 kg
