GSM/GPRS downloader

*3 days battery backup
Downloads data from PES
IP 65
LED signalisation*

D-Point (LAN)

LAN (ethernet) downloader

*Downloads data from PES
LED signalisation*

Special Events KEYpad

KEYpad allows to report special events to the WinKontrol e.g.

- Opened Window**
- Unlocked Door**
- Wet Floor**

Each event is recorded as a code number, which is set in the WinKontrol database. Guard must scan that code by PES on the KEYpad numbered chips. Events are then displayed at the WinKontrol Reports.
