

RF320I4B-N

Universal Transmitter Brown RF433 MHz

Each RF receiver monitors the alarm, battery, tamper and supervisory status of each transmitter. In addition it reports any change in status to the panel, which takes action according to the programmed zone types.

Details

- Learn-Mode Technology
- More than 3 years battery life
- 2 internal reed switches allow for vertical or horizontal mounting
- Wall and cover tamper
- Jumper to select one of the 2 reed switcher or the supervised external input

RF320I4B-N

Universal Transmitter Brown RF433 MHz

Technical specifications

General

Tipo de Aplicación	Montaje en Superficie
--------------------	-----------------------

Wired/wireless

Cableado - Inalámbrico	Wireless
Frecuencia inalámbrica	433 MHz legacy
Rango al aire libre	150 m

Eléctrico

Baterías	1 x 3,6V Lithium
Vida útil de la batería	3 a 5 años

Físico

Peso neto	44 g
Color	Marrón
Dimensiones del contacto / sensor	32 x 32 x 102 mm
Brecha de funcionamiento	10 mm max.

Medioambiental

Temperatura de funcionamiento	-34° to +60° C
Humedad relativa	0 to 90% noncondensing
