

VXI-ST, VXI-AM, VXI-DAM series specifications. Includes model numbers like VXI-DAM-X5, VXI-DAM-X8, VXI-DAM-X7 and their respective frequencies.

Table comparing VXI-ST, VXI-AM, and VXI-DAM models. Columns include 'Standard model with 2 PIR', 'Modelo estándar con 2 sensores de infrarrojos (PIR)', and 'Modelo estándar con 2 sensores de infrarrojos (PIR)'.

The VXI Infinity™ series provides highly reliable detection functions, reducing false reports or report losses. The VXI Infinity™ series delivers stable detection performance even in severe outdoor environments.

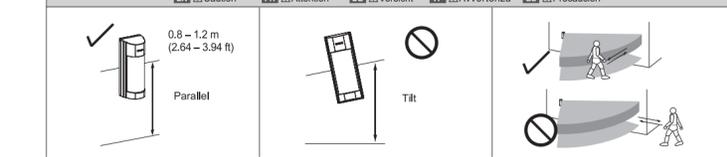

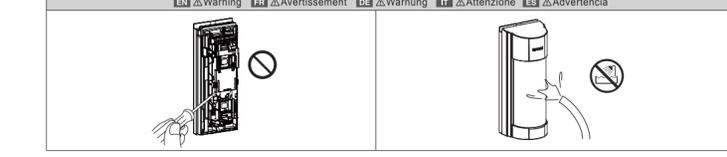

FEATURES. Includes sub-sections for Características, Funktionen, Caratteristiche, and Características.

- Basic features: 12 m (40 ft.) by 90 degree flexible detection pattern adjustable to 5 ranges. SMDA Logic for advanced temperature compensation and environmental noise immunity.

INTRODUCTION. Includes sub-sections for Einleitung, Introduzione, and Introducció.

BEFORE INSTALLATION. Includes sub-sections for Avant l'installation, Vor der Installation, and Prima dell'installazione.

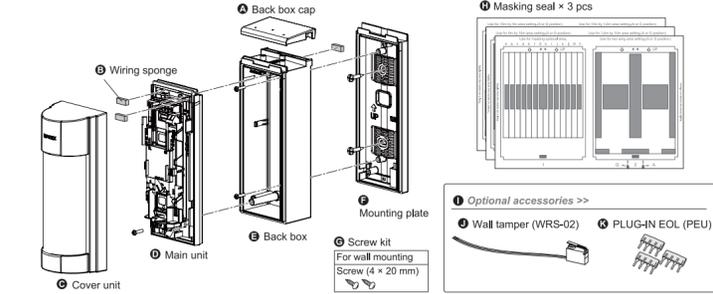

Warning table with columns for Warning, Avertissement, Warnung, Attenzione, and Advertencia. Contains safety instructions in multiple languages.

The check mark indicates a recommendation. The nix sign indicates prohibition. Includes instructions for marking the installation location.

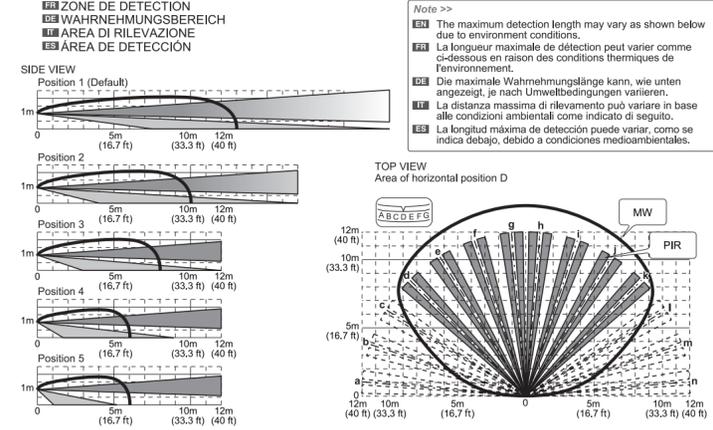

Precautions for installing two or more sensors when using micro-wave model. Includes diagrams showing sensor spacing: 1.0 m (3.28 ft) or more, and Less than 1.0 m (3.28 ft).

PARTS IDENTIFICATION. Includes sub-sections for Identification des pièces, Teile-identifikation, Descrizione delle parti, and Identificación de los partes.

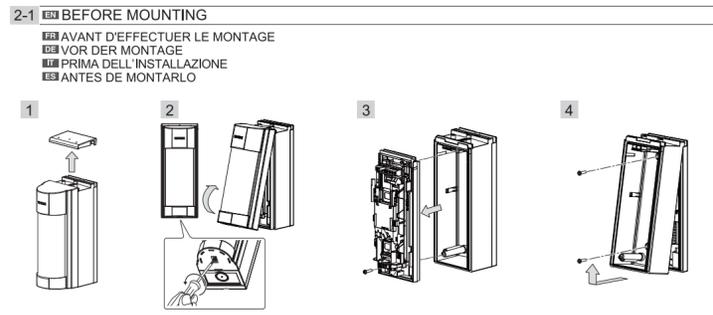

- Optional accessories: Wall tamper (WRS-02), PLUG-IN EOL (PEU). Includes descriptions for Rückkastendeckel, Drahtisolierung, Abdeckungseinheit, etc.

DETECTION AREA. Includes sub-sections for Zone de detection, Wahrnehmungsbereich, Area di rilevazione, and Área de detección.

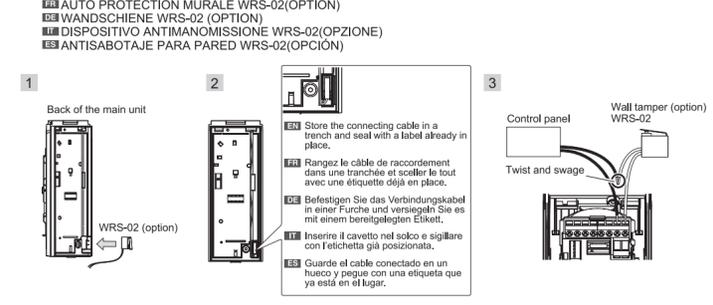

INSTALLATION. Includes sub-sections for Installation, Installazione, and Instalación.

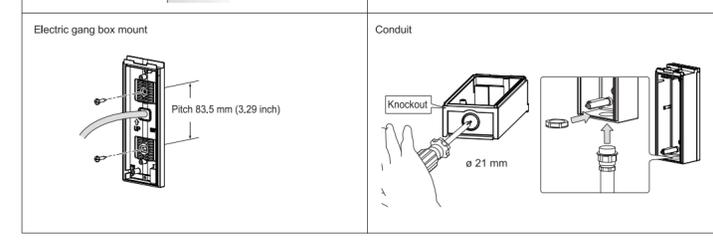

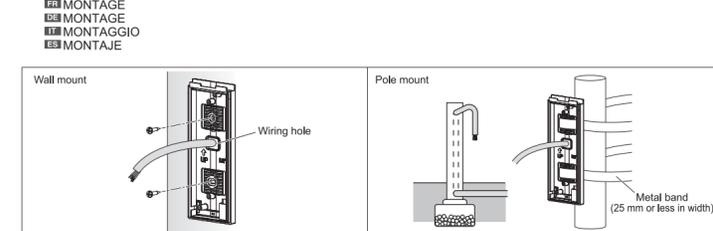

BEFORE MOUNTING. Includes sub-sections for Avant d'effectuer le montage, Vor der Montage, and Prima dell'installazione.

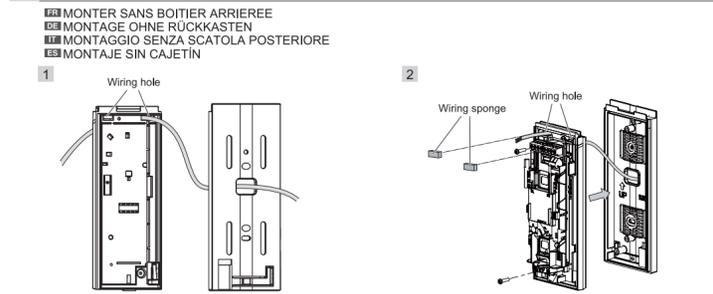

WALL TAMPER WRS-02(OPTION). Includes sub-sections for Auto protection murale, Wandschiene, Dispositivo antimanomissione, and Antisabotaje para pared.

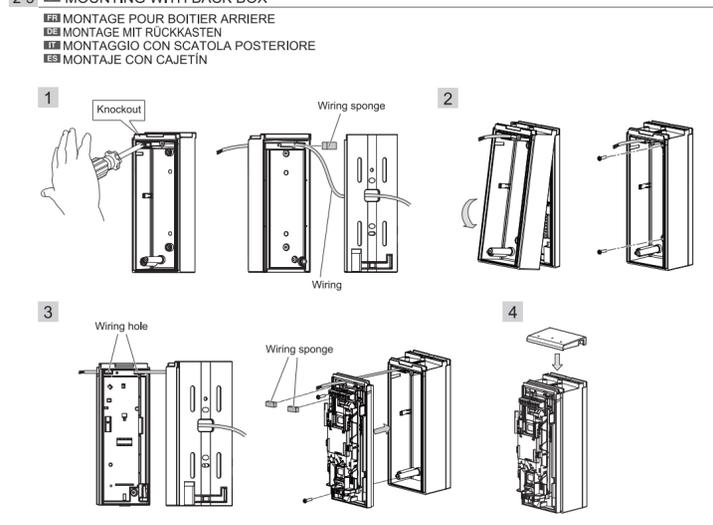

MOUNTING. Includes sub-sections for Montage, Montage, Montaggio, and Montaje.

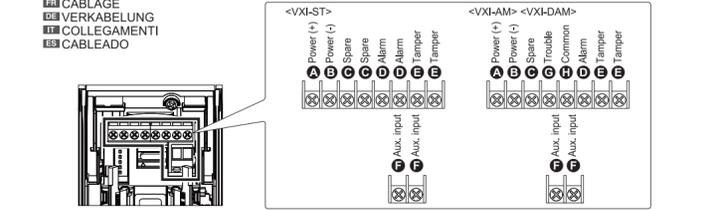

MOUNTING WITHOUT BACK BOX. Includes sub-sections for Monter sans boîtier arrière, Montage ohne Rückkasten, Montaggio senza scatola posteriore, and Montaje sin cajetín.

MOUNTING WITH BACK BOX. Includes sub-sections for Montage pour boîtier arrière, Montage mit Rückkasten, Montaggio con scatola posteriore, and Montaje con cajetín.

WIRING. Includes sub-sections for Cablage, Verkabelung, Collegamenti, and Cableado.

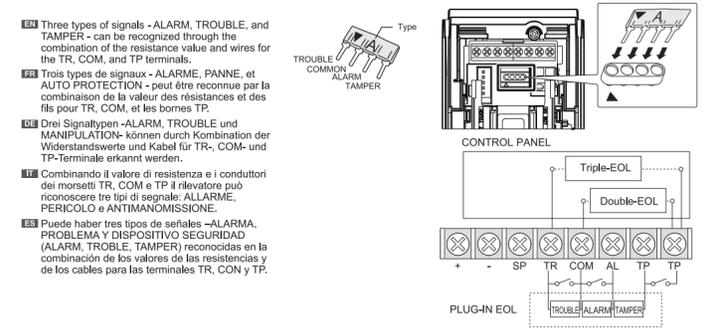

- Alimentation (+), Stromanschluss (+), Alimentazione (+), Entrada (+). Includes symbols for Spare, Alarm, Trouble, Alarm, Tamper, Tamper.

Power cable length. Includes sub-sections for Longueur du câble d'alimentation, Stromkabelänge, Lunghezza del cavo di alimentazione, and Longitud del cable de alimentación.

Table showing wire gauge, current draw, and current draw for VXI-ST, VXI-AM, and VXI-DAM models. Columns include Wire gauge, Current draw 20 mA, Current draw 24 mA, and Current draw 35 mA.

PLUG-IN END OF LINE RESISTORS (EOL) (OPTION). Includes sub-sections for Extrémité de raccordement des résistances de ligne, Steckers, Resistori di fine linea, and Resistencias de fin de línea.

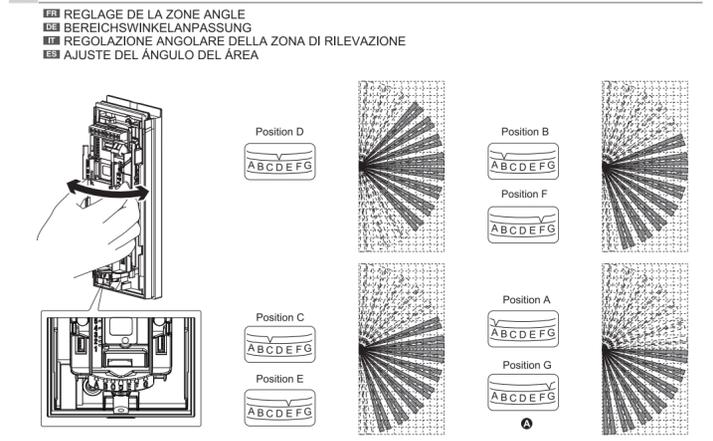

This feature may be used when connecting VXI to a control panel that supports the EOL technique. This function can be used when the resistance value and wires for the TR, COM, and TP terminals.

MOUNTING WITHOUT USING PLUG-IN EOL. Includes sub-sections for Lors du réglage de la valeur de résistance, Beim Einstellen der Widerstandswerte ohne EOL-Stecker, Impostazione del valore di resistenza, and Cuando se ajusta el valor de la resistencia sin usar el PLUG-IN EOL.

Wire resistors between the appropriate terminals as follows: Resistances de fil entre les bornes appropriées comme suit: Kabelwiderstände zwischen den angemessenen Terminals wie folgt.

AREA ANGLE ADJUSTMENT. Includes sub-sections for Réglage de la zone angle, Bereichswinkel Anpassung, Regolazione angolare della zona di rilevazione, and Ajuste del ángulo del área.

The detection area becomes 14 zones only when A or G is selected. The zone of detection ne couvre plus que 14 zones si l'on sélectionne A ou G.

AREA MASKING. Includes sub-sections for Zone de masquage, Bereichsmaskierung, Mascheramento, and Área de enmascaramiento.

If there is an unwanted object within the detection area, apply an area masking label to the appropriate area. En cas d'objet non désiré au sein de la zone de détection, appliquer une étiquette de zone de masquage dans la zone appropriée.
