LEGAL DISCLAIMER

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS MANUAL AND THE PRODUCT DESCRIBED, WITH ITS HARDWARE, SOFTWARE AND FIRMWARE, ARE PROVIDED "AS IS" AND "WITH ALL FAULTS AND ERRORS". HIKVISION MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY, SATISFACTORY QUALITY, OR FITNESS FOR A PARTICULAR PURPOSE. THE USE OF THE PRODUCT BY YOU IS AT YOUR OWN RISK. IN NO EVENT WILL HIKVISION BE LIABLE TO YOU FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR INDIRECT DAMAGES, INCLUDING, AMONG OTHERS, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, OR LOSS OF DATA, CORRUPTION OF SYSTEMS, OR LOSS OF DOCUMENTATION, WHETHER BASED ON BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY, OR OTHERWISE, IN CONNECTION WITH THE USE OF THE PRODUCT, EVEN IF HIKVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSS.

YOU ACKNOWLEDGE THAT THE NATURE OF INTERNET PROVIDES FOR INHERENT SECURITY RISKS, AND HIKVISION SHALL NOT TAKE ANY RESPONSIBILITIES FOR ABNORMAL OPERATION, PRIVACY LEAKAGE OR OTHER DAMAGES RESULTING FROM CYBER-ATTACK, HACKER ATTACK, VIRUS INSPECTION, OR OTHER INTERNET SECURITY RISKS; HOWEVER, HIKVISION WILL PROVIDE TIMELY TECHNICAL SUPPORT IF REQUIRED.

YOU AGREE TO USE THIS PRODUCT IN COMPLIANCE WITH ALL APPLICABLE LAWS, AND YOU ARE SOLELY RESPONSIBLE FOR ENSURING THAT YOUR USE CONFORMS TO THE APPLICABLE LAW. ESPECIALLY, YOU ARE RESPONSIBLE, FOR USING THIS PRODUCT IN A MANNER THAT DOES NOT INFRINGE ON THE RIGHTS OF THIRD PARTIES, INCLUDING WITHOUT LIMITATION, RIGHTS OF PUBLICITY, INTELLECTUAL PROPERTY RIGHTS, OR DATA PROTECTION AND OTHER PRIVACY RIGHTS. YOU SHALL NOT USE THIS PRODUCT FOR ANY PROHIBITED END-USES, INCLUDING THE DEVELOPMENT OR PRODUCTION OF WEAPONS OF MASS DESTRUCTION, THE DEVELOPMENT OR PRODUCTION OF CHEMICAL OR BIOLOGICAL WEAPONS, ANY ACTIVITIES IN THE CONTEXT RELATED TO ANY NUCLEAR EXPLOSIVE OR UNSAFE NUCLEAR FUEL-CYCLE, OR IN SUPPORT OF HUMAN RIGHTS ABUSES.

IN THE EVENT OF ANY CONFLICTS BETWEEN THIS MANUAL AND THE APPLICABLE LAW, THE LATER PREVAILS.

Regulatory information

FCC information

FCC compliance: Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.

FCC conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

EU Conformity Statement

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with

the applicable harmonized European standards listed under the Radio Equipment Directive 2014/53./EU, the EMC Directive 2014/30/EU, the LVD Directive 2014/35/EU, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info.

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier

or to a designated collection point. For more information see: www.recyclethis.info.

Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (B)/NMB-3(B) standards requirements.

Body Camera User Manual

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1) this device may not cause interference, and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radioexempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- 1) l'appareil ne doit pas produire de brouillage, et
- 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

Safety Instruction

Laws and Regulations

Use of the product must be in strict compliance with the local laws and regulations. Please shut down the device in prohibited area.

Power Supply

- Use of the product must be in strict compliance with the local electrical safety regulations.
- Use the power adapter provided by qualified manufacturer. Refer to the product specification for detailed power requirements.
- It is recommended to provide independent power adapter for each device as adapter overload may cause over-heating or a fire hazard.
- Make sure that the power has been disconnected before you wire, install, or disassemble the device.
- DO NOT directly touch exposed contacts and components once the device is powered up to avoid electric shock.
- DO NOT use damaged power supply devices (e.g., cable, power adapter, etc.) to avoid electric shock, fire hazard, and explosion.
- DO NOT directly cut the power supply to shut down the device. Please shut down the device normally and then unplug the power cord to avoid data loss.
- DO NOT block the power supply equipment to plug and unplug conveniently.
- Make sure the power supply has been disconnected if the power adapter is idle.
- Make sure the device is connected to the ground firmly.

Transportation, Use, and Storage

- To avoid heat accumulation, good ventilation is required for a proper operating environment.
- Store the device in dry, well-ventilated, corrosive-gas-free, no direct sunlight, and no heating source environment.
- Avoid fire, water, and explosive environment when using the device.
- Avoid lightning strike for device installation. Install a lightning arrester if necessary.
- Keep the device away from magnetic interference.
- Avoid device installation on vibratory surface or places, and avoid equipment installation on vibratory surface or places subject to shock (ignorance may cause device damage).
- DO NOT touch the heat dissipation component to avoid burns.
- DO NOT expose the device to extremely hot, cold, or humidity environments. For temperature and humidity requirements, see device specification.
- The device can only be safely used in the region below 2000 meters above the sea level.

Maintenance

- If smoke, odor, or noise arises from the device, immediately turn off the power, unplug the power cable, and contact the service center.
- If the device is abnormal, contact the store you purchased it or the nearest service center. DO NOT disassemble or modify the device in any way (For the problems caused by unauthorized modification or maintenance, the company shall not take any responsibility).
- Keep all wrappers after unpacking them for future use. In case of any failure occurred, you need to return the device to the factory with the original wrapper. Transportation without the original wrapper may result in damage to the device and the company shall not take any responsibility.

Network

- Please enforce the protection for the personal information and the data security as the device may be confronted with the network security problems when it is connected to the Internet. Please contact us when the device might exist network security risks.
- Please understand that you have the responsibility to configure all the passwords and other security settings about the device, and keep your user name and password.

Body Camera User Manual

Lens

- DO NOT touch the lens with fingers directly in case the acidic sweat of the fingers erodes the surface coating of the lens.
- DO NOT aim the lens at the strong light such as sun or incandescent lamp. The strong light can cause fatal damage to the device.

Screen

Clean the screen with soft and dry cloth or other substitutes to wipe the interior and exterior surface. DO NOT use alkaline detergents. Protect the screen from scratches.

Battery

- DO NOT charge the battery continuously more than one week. Overcharging may shorten the battery life.
- Battery will discharge gradually if it is not used for a long time. It must be recharged before using.
- If the device contains dismountable battery, store the device and battery separately if it is not used.
- The battery must be charged and discharged every three months if it is not used, and recharged to 60% to 70% power percentage to store.
- The scrapped battery should be discarded in compliance with the local laws and regulations. If there are no corresponding laws or regulations, throw it in a hazardous trash can.
- DO NOT pierce the battery or shorten the electrodes, or it may cause explosion or fire hazard.
- DO NOT throw the battery in fire or water, or it may cause explosion.
- Please use the specific battery supported by the device, or it may cause explosion. If the battery is damaged and needs to be changed, contact the device manufacturer or local distributor.
- If the device contains button battery, keep it far away from children.
- DO NOT expose the battery pack or battery combination to sunlight, fire, or similar overheated environment.

Data

DO NOT disconnect the power during formatting, uploading, and downloading. Or files may be damaged.

Laser

The laser radiation emitted from the device can cause eye injuries, burning of skin or inflammable substances.

Before enabling the Light Supplement function, make sure no human or inflammable substances are in front of the laser lens.

Symbol Conventions

The symbols that may be found in this document are defined as follows.

Symbol	Description
	Indicates a potentially hazardous situation, which if not avoided, could result in equipment damage, data loss, performance degradation, or unexpected results.
	Provides additional information to emphasize or supplement important points of the main text.

Chapter 1 Introduction

Purpose:

Body camera is a video recording system that is typically used by law enforcement to record their interactions with the public and gather video evidence at crime scenes.

1.1 Key Feature

- H.264/H.265 encoding technology.
- High recording resolution.
- Wide-range lens.
- Dismountable battery design.
- A built-in small battery will supply body camera power when replacing the battery.
- Denoising technology helps to reduce noise and resist echo.
- Built-in GPS module.
- Light weight.
- Small size.
- IP65.
- Dock station can upgrade and distribute user accounts to body camera.

1.2 Package List

Following objects are delivered with package list. If something loses, contact us or our supplier for it.

- 1 × Body camera.
- 1 × USB data cable.
- 1 × Charger.
- 1 × Demountable and angle adjustable clip.
- 1 × Printed quick start guide.

1.3 Buttons and Interfaces

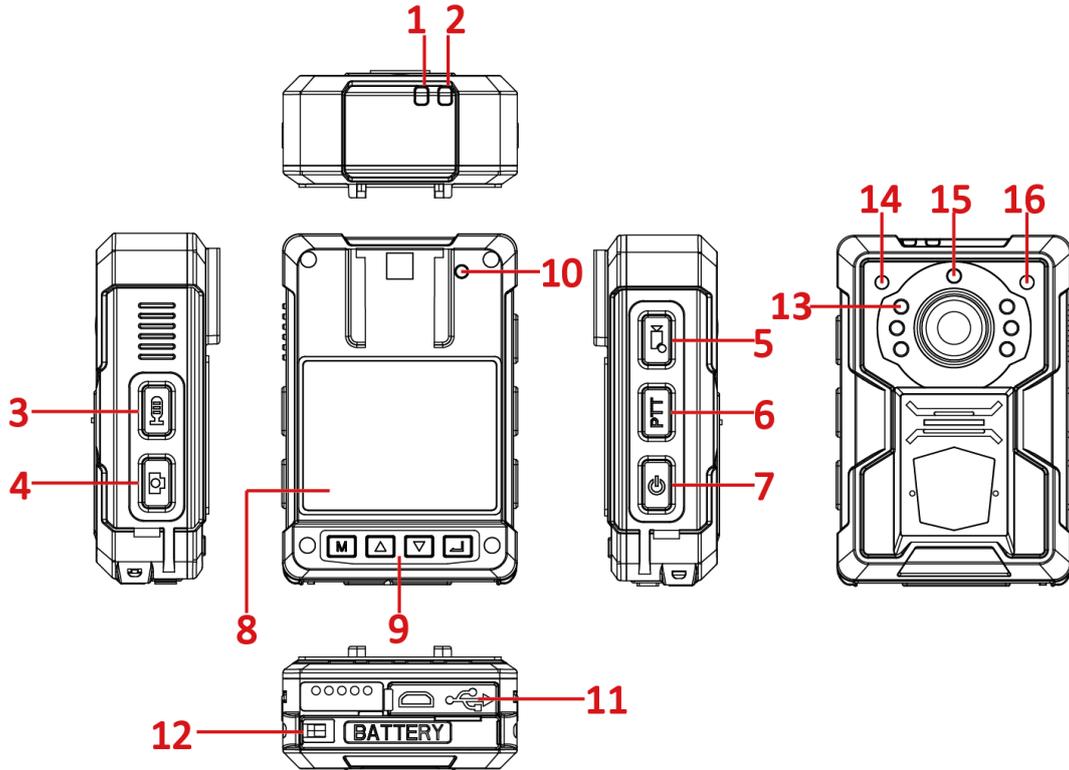

Figure 1. 1 Overall View

Table 1. 1 Button Description

No.	Button	Description
1	LED 1	<ul style="list-style-type: none"> When body camera is being charged, it is solid red. When body camera is in low battery, it flashes in red with high frequency. When body camera is recording, it flashes in red with low frequency.
2	LED 2	When body camera is starting up, it is solid green.
3	Taping	<ul style="list-style-type: none"> Press it to start/stop taping. Hold it for 3 seconds to turn on/off fluorescent.
4	Capture	Press it to capture current live view image.
5	Recording	<ul style="list-style-type: none"> Press it to start/stop recording. Hold it for 3 seconds to turn on IR positioning light. Hold it for 2 seconds to start up body camera and start recording.
6	PTT	Group intercom button.
7	Sleep/Wake	<ul style="list-style-type: none"> When device is off, hold it for 3 seconds to start up. When device is on, hold it for 3 seconds to shut down. After device started up, press it to inactivate/activate LCD.
8	LCD	It displays local menu and live view image.
9	Menu button	 <ul style="list-style-type: none"> In LCD live view mode, press it to enter main menu.

No.	Button	Description
		<ul style="list-style-type: none"> In LCD menu, press it to exit.
		<p>△/▽:</p> <ul style="list-style-type: none"> In LCD menu, press it to navigate between fields and items in menus. In LCD playback mode, press △/▽ to speed up/slow down playback speed. In LCD live view mode, press △/▽ to zoom in/out.
		<p>┐:</p> <ul style="list-style-type: none"> In LCD menu, press it to enter a sub-menu or confirm a selection. When device is recording, hold it for 3 seconds to set a video tag.
10	Reset button	Press it to shut down body camera forcedly.
11	USB interface	USB interface for charging and data transmission.
	Serial port	Serial port for debugging.
12	Battery	Battery slot.
13	IR Light	You can turn on the IR lights to supply body camera sufficient light to get a visible image.
14	White light	Supplies light at dark environment.
15	Image sensor	Image sensor.
16	IR positioning light	IR positioning light.

1.4 Shoulder Clip Installation

Purpose:

The shoulder clip helps you to fix the body camera on your garment. The vertical adjustable angle is 360°.

Step:

Push the shoulder clip into top of the clip slot as the direction shown in the following figure, till the clip is tightly fixed.

Figure 1. 2 Install Shoulder Clip

1.5 Charging

1.5.1 How to Charge

Purpose:

Follow the steps to charge device.

Steps:

1. Open the cover of USB interface.
2. Connect body camera to the charger or USB port of computer with the USB data cable. The LCD will show the charging status.

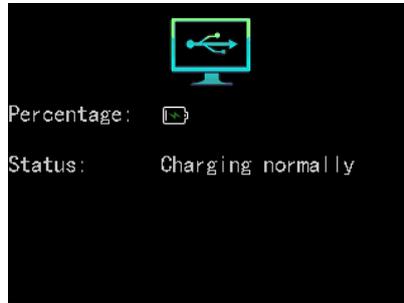

Figure 1. 3 Charging via Computer

1.5.2 How to Protect Charger

- Once charging completed, disconnect the connection between charger and body camera, and the connection between charger and power supply.
- Handle with care. In case the charger or USB data cable is physically damaged or is affected with damp, do not keep using it. You can contact us to change charger.
- To protect device and your security, do not touch the body camera, charger, and USB cable with wet hand.
- Don't pull out charger from power supply by pulling the USB data cable.

Chapter 2 Startup

2.1 Startup

Before you start:

Ensure the power is sufficient. If not, charge body camera. For details, refer to 1.5.1 How to Charge.

Step:

Hold **Sleep/Wake** for 3 seconds. Then the LED 2 turns green, the **HIKVISION** logo pops up, and you will hear an audible notification. All of these indicate the body camera starts successfully.

2.2 Sleep/Wakeup

Step:

The LCD goes to sleep automatically when there is no operation in the predefined auto-lock time. Press any button, except PTT, to manually activate LCD. Press the **Sleep/Wakeup** button to inactive LCD.

2.3 Shutdown

Step:

Hold **Sleep/Wake** for 3 seconds. When you hear an audible notification, and the **HIKVISION** logo pops up on the LCD, the LCD shut down successfully.

2.4 Force to Shutdown

Step:

If body camera crashed or it cannot be shut down normally, you can press the **Reset** button with a pin or similar thin object to shutdown forcibly.

2.5 Login

If login feature is on, you need to log into device by entering your ID at every boot. You can go to System Settings > Login to turn off login feature.

Step:

1. Select the user to log in.
2. Enter your ID and confirm. When operating files via assistant or in USB mode, the ID will show in the file name of the recorded video, audio, and picture.

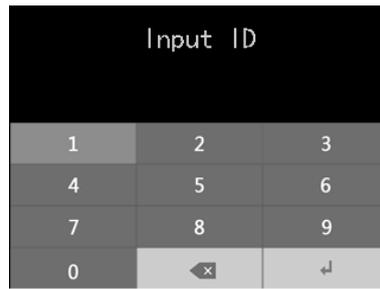

Figure 2. 1 Login

Chapter 3 Basic Functions

3.1 Live View Icons

Purpose:

Once the body camera starts up completely, it automatically enters the live view image. 11 icons are shown in live view.

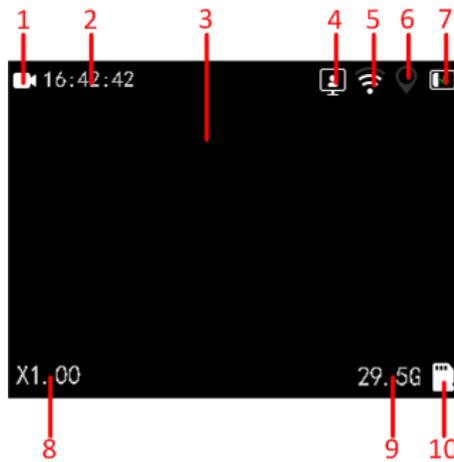

Figure 3. 1 Live View Icons

Table 3. 1 Live View Icon Description

Number	Name	Description
1	Recording status	Shows the recording status. <ul style="list-style-type: none"> ● Not recording: ● Recording:
2	Remaining recording time	The time is variable and is decided by video resolution, frame rate, and bitrate.
3	OSD (On Screen Display) menu	Shows the device date and time.
4	Platform status	Shows whether device is connected with platform. <ul style="list-style-type: none"> ● Disconnected: ● Connected:
5	Wi-Fi status	Shows whether Wi-Fi is connected. <ul style="list-style-type: none"> ● Disconnected: ● Connected:
6	Positioning status	Shows whether positioning is successful. <ul style="list-style-type: none"> ● Unsuccessful: ● Succeeded:

Number	Name	Description
		● GPS module failed: 
7	Battery information	Shows the remaining battery and charging status.
8	Zoom status	Shows the zoom status.
9	Remaining memory capacity	Shows the remaining memory capacity
10	Memory card status	Shows whether memory is recognized.

3.2 Menu Operation

Before you start:

Wake up LCD.

Steps:

1. Press **M** to bring up main menu.
2. Press  to enter the four sub-menus, including Playback, Camera Settings, Network Settings, and System Settings.

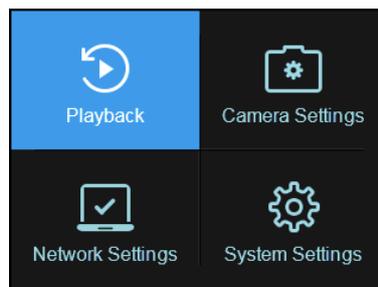

Figure 3. 2 Main Menu

Table 3. 2 Sub-Menu Description

Menu	Description
Playback	You can view recorded videos, pictures, and audios.
Camera Settings	You can set camera parameters including video resolution, bitrate, frame rate, pre-record time, post-record time, video clip time, and picture quality.
Network Settings	You can turn on/off Wi-Fi and set network transmission resolution, network transmission bitrate, network transmission frame rate, and platform connection.
System Settings	You can set positioning parameters, time synchronization, system sound, language, and so on.

3.3 Taking Pictures

Purpose:

You can take pictures of the crime scenes or other situations.

Step:

1. To set picture quality, do following steps:

- 1) Enter Camera Settings sub-menu.
 - 2) Press  to position the cursor on **Picture Quality**. And click  to enter Picture Quality menu.
 - 3) Press  to select picture quality. And click  to save the settings.
2. Press  at the left side of device to take a picture of current live view image.

- Step 2 is invalid in playback, quick charging, USB communication interface. Exit the interfaces before operation.
- The picture is saved in memory in *.jpg* format and named by taking picture date and time.
- You can play back the picture in playback menu or download and save it in computer local path. For detailed steps of downloading pictures, you can refer to *7.7 Assistant File Saving Path*.

3.4 Record and Capture

Purpose:

You can record the videos in crime scenes or other situations. And during the recording, you can capture.

Steps:

1. Enter live view mode.
2. Press  to start recording. Then  in live view turns to  and the LED 1 starts flashing in red.
3. Optionally, during the recording process, you can press  to capture current live view image.
4. Press  again to stop recording. Then  turns to .

- The operation is invalid in playback, quick charging, USB communication interface. Exit the interfaces before operation.
- The video is saved in memory in *.mp4* format and named by recording starting time.
- The picture is saved in memory in *.jpg* format and is named by capturing date and time.
- The captured picture's resolution is the same as video resolution.
- You can play back the video and picture in playback menu or download and save it in computer local path. For detailed steps of downloading videos, you can refer to *7.7 Assistant File Saving Path*.

3.5 Taping

Purpose:

You can tape audios in crime scenes or other situations.

Steps:

1. Enter live view mode.
2. Press  to start taping. Then  pops up in live view interface.
3. Press  again to stop taping. Then  disappears.

- The operation is invalid in playback, quick charging, USB communication interface. Exit the interfaces before operation.
- The audio file is saved in memory in .WAV format and is named by taping starting time.
- You can play back the audio in playback menu or download and save it in computer local path. For detailed steps of downloading audios, you can refer to 7.7 Assistant File Saving Path.

3.6 Playback

Purpose:

You can play back recorded videos, pictures, and audios.

Steps:

1. Enter Playback interface.
Main Menu > Playback
2. If Verify function is on, you need to enter device password to get permission.

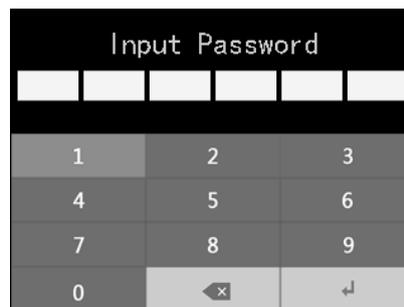

Figure 3.3 Input Password

3. Press Δ/∇ to select the playback file type as **Video**, **Picture**, or **Audio**. And press Enter to enter selected type menu.

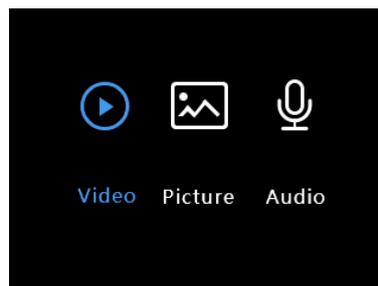

Figure 3.4 File Type

4. File Type
5. In file list, press Δ/∇ to select the file to play back.
 - During video playback process, you can press Δ/∇ to speed up/slow down the playback speed. And you can press Enter to pause/resume playback process.
 - During picture playback process, you can press Δ/∇ to turn to previous/next picture.
6. Press Enter to start playback.
7. Press M to exit playback.

3.7 Memory Full Alarm

Purpose:

If memory is full, when you start recording, taping, capture, or other function consumes storage, the following phenomena will show: the message “Memory is full.” pops up in LCD, body camera sends out an alarm audio, and LED 1 starts flickering. To save new files, you need to backup device first and clear memory.

Memory full alarm is on by default and cannot be turned off.

Chapter 4 Network Settings

4.1 Wi-Fi

Purpose:

You can access internet by connecting to a Wi-Fi.

The function is only available to the models supporting Wi-Fi.

Before you start:

Configure Wi-Fi parameters, including SSID and key, in body camera assistant. For detailed steps, refer to 7.5.4 *Wi-Fi Parameters*.

Steps:

- To turn on Wi-Fi on LCD menu, do following steps:
 1. Enter Network Settings interface.
Main Menu > Network Settings
 2. Press Δ/∇ to position the cursor on **Wi-Fi** item. And press \hookrightarrow to enter Wi-Fi menu.

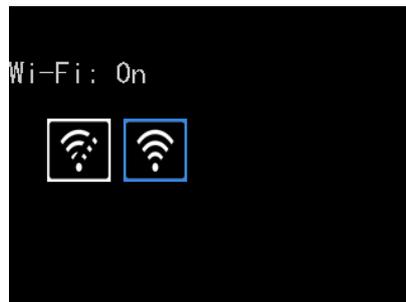

Figure 4. 1 Wi-Fi Settings

3. Press Δ/∇ to select Wi-Fi as **On**.
4. Press \hookrightarrow to save the settings.
5. When the prompt "Reboot device to take effect." pops up, select **OK** and press \hookrightarrow to reboot body camera.
6. You can view the Wi-Fi Status, SSID, and IP in Wi-Fi Information menu.
Main Menu > Network Settings > Wi-Fi Information

Figure 4. 2 Wi-Fi Information

- To turn on Wi-Fi on Body Camera Assistant.

For detailed steps, refer to 7.5.4 *Wi-Fi Parameters*.

4.2 Network Transmission Parameters

Purpose:

To determine the resolution, frame rate, and bitrate used by iVMS platform when it views body camera image, configure the network transmission parameters.

Steps:

1. Enter Network Settings interface.

Main Menu > Network Settings

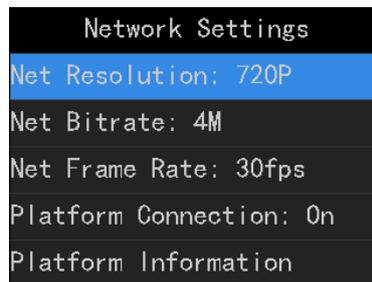

Figure 4. 3 Network Settings

2. Press Δ/∇ to position the cursor on **Net Resolution**, **Net Bitrate**, or **Net Frame Rate**. And press Enter to enter corresponding menu.
3. Press Δ/∇ to select target parameter.
4. Press Enter to save the settings.

Chapter 5 Camera Settings

Purpose:

Set the parameters for video, including resolution, frame rate, bitrate, and so on.

Steps:

- To configure camera parameters on LCD menu, do following steps:

1. Enter Camera Settings interface.

Main Menu > Camera Settings

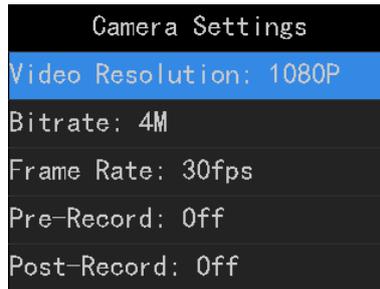

Figure 5. 1 Camera Settings

2. Press Δ/∇ to position the cursor on **Video Resolution, Bitrate, Frame Rate, Pre-Record, Post-Record**, or other items. And press the $_$ button to enter corresponding menu.

- **Pre-Record:** The time you set to record before the start recording time. For example, when you start recording at 10:00, if you set the pre-record time as 5 seconds, the camera records it at 9:59:55.
- **Post-Record:** The time you set to record after the stop recording time. For example, when you stop recording ends at 11:00, if you set the post-record time as 5 seconds, it records till 11:00:05.
- **Video Clip:** Maximum size for every video. Video will be automatically recorded into a new clip once reaches the size.

3. Press Δ/∇ to select target parameter.

4. Press $_$ to save the settings and go back to upper menu.

5. Optionally, if encoding type is changed, reboot body camera to take effect the new settings.

- To configure camera parameters on Body Camera Assistant.

For detailed steps, refer to *7.5.2 Encoding Parameters*.

Chapter 6 System Settings

To enter System Settings menu, do following step:

Press Δ/∇ to position the cursor on **System Settings** menu. And press \hookrightarrow to enter System Settings menu.

6.1 Sound

Purpose:

Turn on and turn off system sound. If it is on, when you press a button or alarm occurs, body camera will send out a tone. By default it is on.

Steps:

1. Enter System Settings menu.
2. Press Δ/∇ to position the cursor on **Sound**. And press \hookrightarrow to enter.
3. Press Δ/∇ to select Sound as **On** or **Off**. And press \hookrightarrow to save the settings.

Figure 6. 1 Sound

6.2 Turning on/off LED

Purpose:

Turn on or turn off the LEDs. If LEDs are on, they will be automatically turned on or off according to device status. For details of LED status, you can refer to *1.3 Buttons and Interfaces*.

Steps:

1. Enter System Settings menu.
2. Press Δ/∇ to position the cursor on **LED**. And press \hookrightarrow to enter LED settings menu.
3. Press Δ/∇ to select LED as **On** or **Off**. And press \hookrightarrow to save the settings.

Figure 6. 2 LED

6.3 Language Settings

Purpose:

Two languages are provided: Chinese and English.

Steps:

1. Enter System Settings menu.
2. Press Δ/∇ to position the cursor on **Language**. And press \leftarrow to enter Language settings menu.
3. Press Δ/∇ to select language as **Chinese** or **English**. And press \leftarrow button to save the settings.

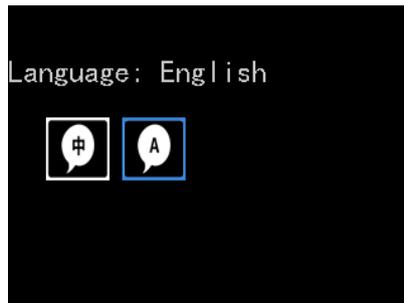

Figure 6. 3 Language

6.4 Turning on/off IR Lights

Purpose:

The body camera provides IR (Infrared Radiation) lights. At night or dark environment, the IR lights supply sufficient light to get a visible image.

Steps:

1. Enter System Settings sub-menu.
Main Menu > System Settings
2. Press Δ/∇ to position the cursor on IR Light item. And press \leftarrow to enter.

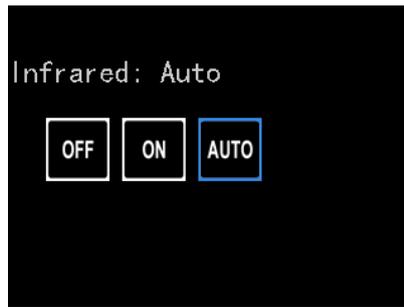

Figure 6. 4 IR Light

3. Press Δ/∇ to position the cursor on **OFF**, **ON**, or **AUTO**.
 - **OFF**: By default, IR light is off. The status adapts to daylight period.
 - **ON**: In night period or dark environment, it is recommended to turn on IR light.
 - **AUTO**: Body camera automatically turns on/off IR light according to environment.
4. Press Enter to save the settings.

6.5 Positioning Settings

Purpose:

Body camera has a built-in positioning module. By turning on positioning function, the device can obtain the latitude, longitude, and speed information.

The function is only available to the models supporting positioning.

Before you start:

Ensure the body camera locates in a place the positioning signal exists.

Steps:

1. Enter System Settings interface.
2. Press Δ/∇ to position the cursor on **Positioning** item. And press Enter to enter.
3. Press Δ/∇ to select positioning type as **Off**, **GPS**, **BeiDou**, or **GPS + BeiDou**.
4. Press Enter to save the settings and reboot device to take effect the settings.

After device restarted, if positioning succeeded, the positioning icon in live view will turn from  to .

Figure 6. 5 Positioning

6.6 Login Settings

Purpose:

If login feature is on, you need to log into device by entering your ID at every boot. The ID will show in the file name of the recorded video.

Go to **System > Login** to turn on/off login feature.

6.7 System Information

Purpose:

System information menu shows the device model, serial number, and version.

Steps:

1. Enter System Settings interface.
2. Press Δ/∇ to position the cursor on **System Information** item. And press \leftarrow to enter.

6.8 Battery Information

Purpose:

Battery information menu shows the remaining battery, time to fully charged, and charging status.

Steps:

1. Enter System Settings interface.
2. Press Δ/∇ to position the cursor on **System Information** item. And press \leftarrow to enter.

Figure 6. 6 Battery Information

6.9 User Information

After connecting body camera to dock station, dock station will distribute accounts to body camera. You can select user accounts displayed in the bottom left of the body camera LCD. Up to 20 accounts of common user can be displayed.

Chapter 7 Body Camera Assistant

Purpose:

Log in to body camera via the Body Camera Assistant (hereinafter referred to as Assistant) to view logs, videos, audios, and pictures, and configure parameters remotely.

Get Assistant from the official website (<http://overseas.hikvision.com/en/>).

7.1 Assistant Installation

Installation package includes *BodyCameraAssistant-win32.exe* and *BodyCameraAssistant-win64.exe*. Select installation package according to your computer system type.

Steps:

1. Double-click the installation package to start installing.

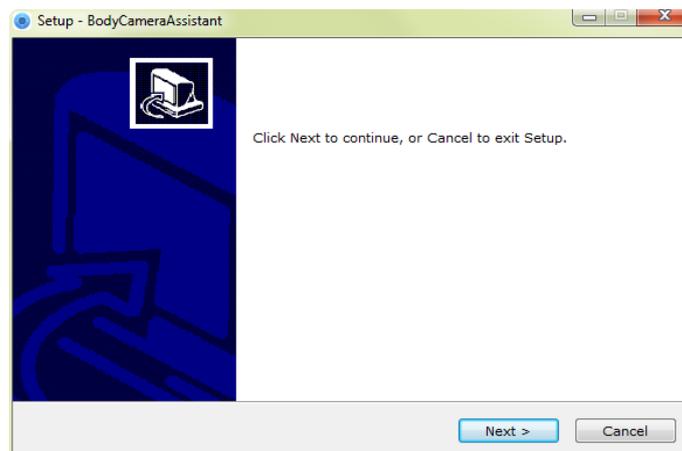

Figure 7. 1 Setup

2. Click **Next** to enter Select Destination Location window. Click **Browser** to select the path where to install the assistant.

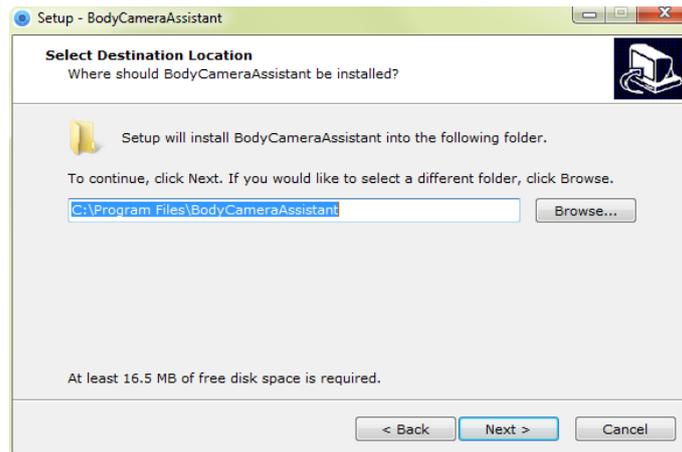

Figure 7. 2 Destination Location

3. Click **Next** to enter Select Start Menu Folder window. Optionally, you can edit the shortcut name and click **Browser** to select the folder where to create shortcut.

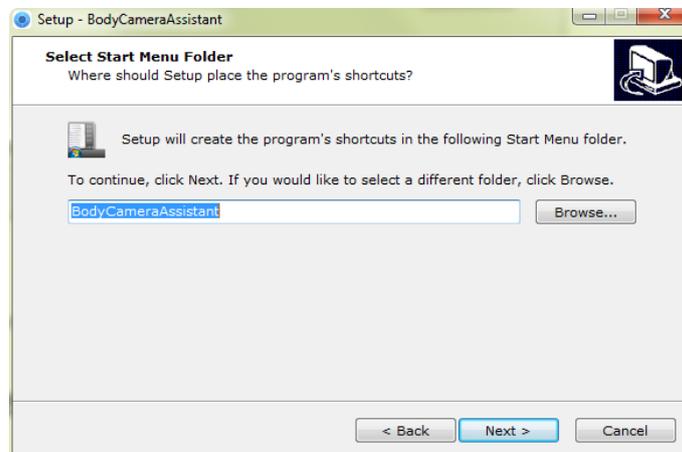

Figure 7. 3 Start Menu Folder

4. Click **Next** to enter Select Additional Tasks window. Optionally, you can create a desktop icon by checking the checkbox of **Create a desktop icon**.

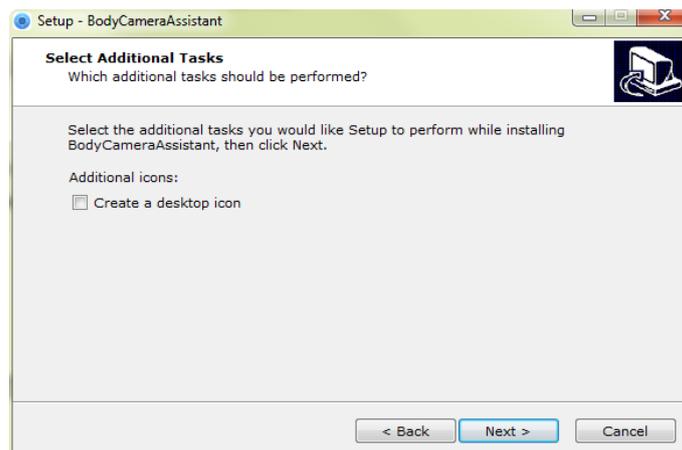

Figure 7. 4 Additional Tasks

5. Click **Next** to enter Ready to Install window. Click **Install** start installing.

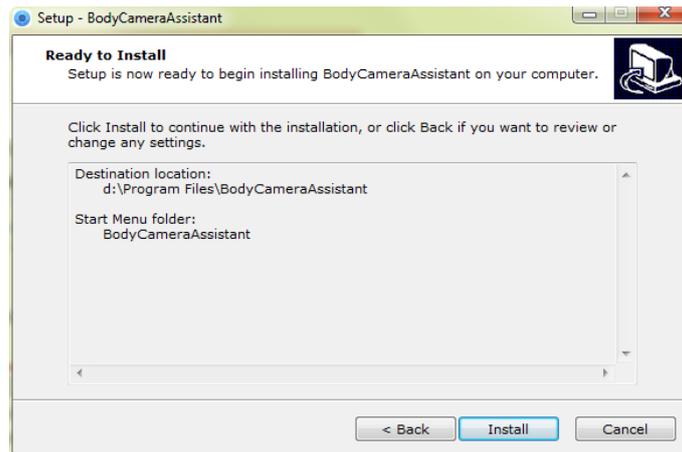

Figure 7. 5 Ready to Install

6. During the installation process, the following window will pop up.

Figure 7. 6 Device Driver Installation Wizard

7. Click **Next** to start installing device driver.

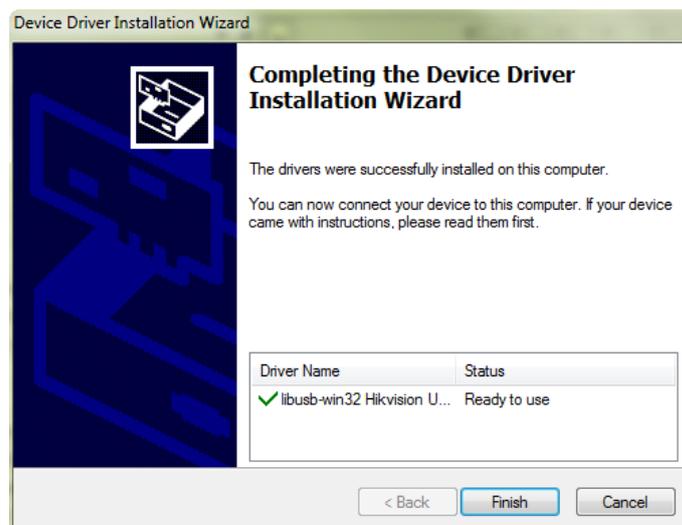

Figure 7. 7 Device Driver Installation Wizard

8. Click **Finish** in Device Driver Installation Wizard and click **Finish** in Body Camera Assistant Wizard to finish the installation.

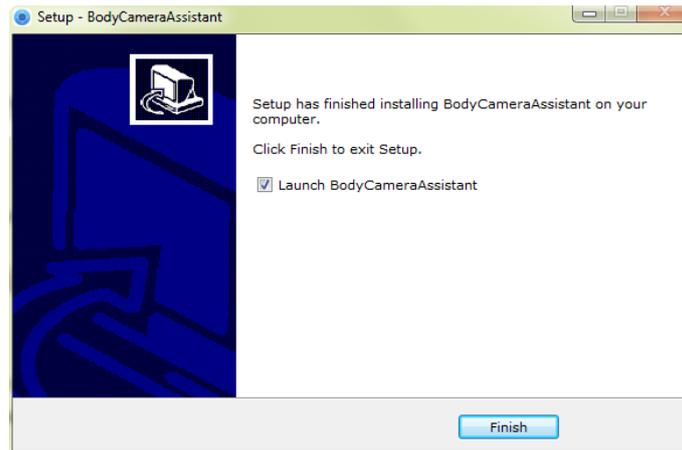

Figure 7.8 Finish

9. Then the body camera assistant window appears.

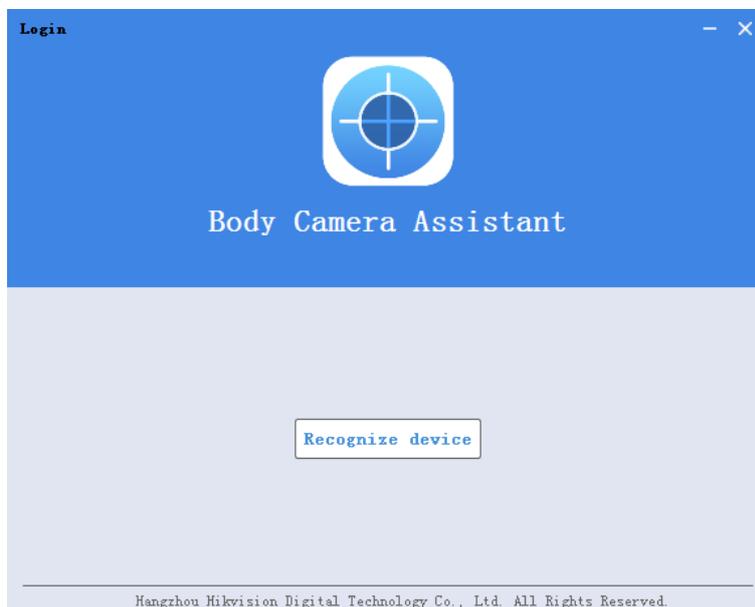

Figure 7.9 Body Camera Assistant

7.2 Device Login

Purpose:

You need to connect the assistant with body camera.

Before you start:

Connect the body camera to your computer with the USB data cable.

Steps:

1. Run the assistant.
2. Click **Recognize device** button to start recognizing. Then the recognized device will be listed.

Figure 7.10 Recognized Device

3. Click the recognized device, input device password, and then click **Login** to log in. Then the assistant

window shows. If you forget the password, refer to *7.3 Password Recovery* to recover password.

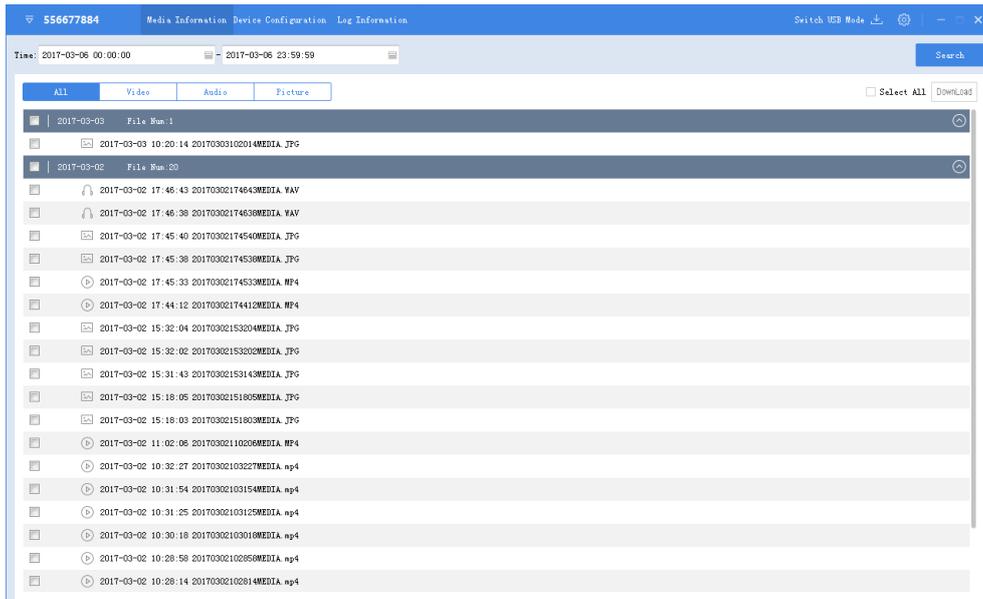

Figure 7. 11 Body Camera Assistant

7.3 Password Recovery

Purpose:

If you forgot your device password, you can recover it back to default password.

Steps:

1. Enter device login window.

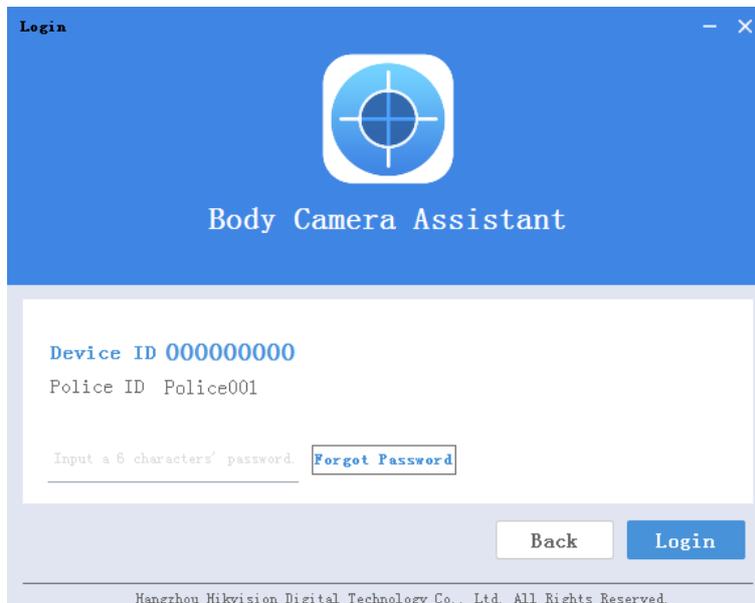

Figure 7. 12 Login Window

2. Click **Forget Password**.
3. Click **File Export** to export file *DeviceKey.xml*.
4. Send the file to your manufacturer. They will send you an encryption file.

5. Click  to import the encryption file received in step 4.
6. Click **Verifying Encryption** to start verifying. If verifying succeeded, device password will be recovered to default.

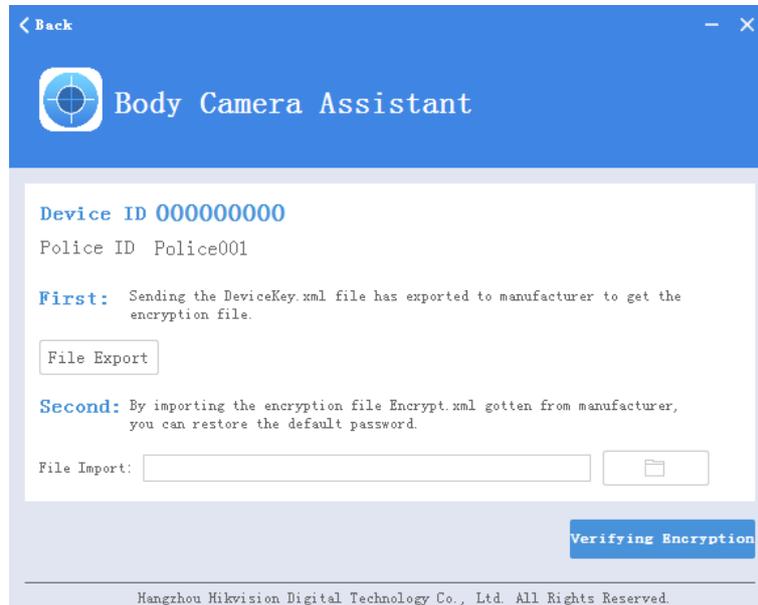

Figure 7. 13 Password Recovery

7.4 Media Information

Purpose:

Two methods are provided for you to operate files saved in body camera: operating files via logging in assistant and switching device into USB mode.

7.4.1 File Operation via Assistant

Purpose:

You can download or clear files here.

Steps:

1. Log in device via assistant.
2. Click the **Media Information** tab.

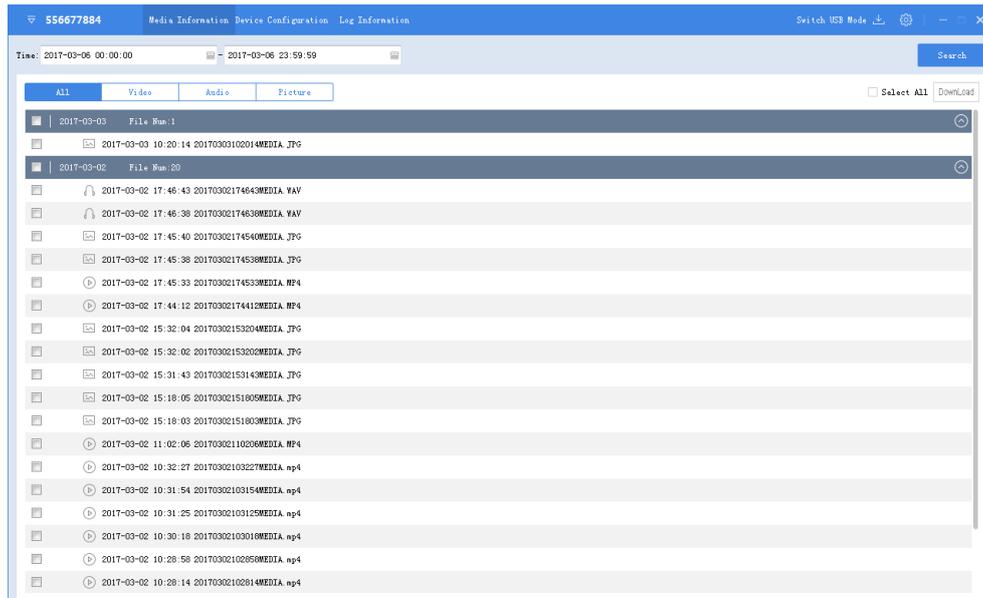

Figure 7. 14 Media Information

3. Click **All**, **Video**, **Audio**, or **Picture** tab to select which file type you want to view.
4. Check the checkboxes of files you want to download.
5. Click  to enter File Download window.

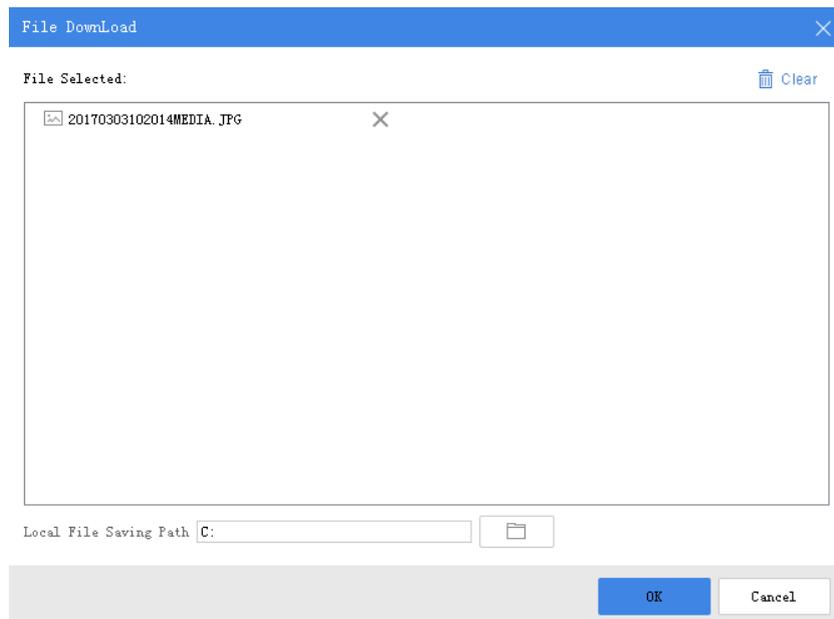

Figure 7. 15 File Download

6. Click  to select Local File Saving Path.
7. Click **OK** to start downloading.
8. Optionally, you can click  in upper right corner to view downloading status.

No.	File	Download Process	Operation
07	20140102194246MEDIA0005.AAC	Downloading failed.	Re-Download X
15	20140102194246MEDIA0005.AAC	Downloading failed.	Re-Download X
18	20140102194124MEDIA0002.MP4	Downloading** Please w	
19	20140102194025MEDIA0001.MP4	Downloading**	X

Figure 7. 16 Downloading Status

7.4.2 File Operation in USB Mode

Steps:

1. Log in device via assistant.
2. Click the **Switch USB Mode** icon in top right corner of assistant window.
3. Click **OK** to confirm in the pop up dialog box. Then the assistant will exit.

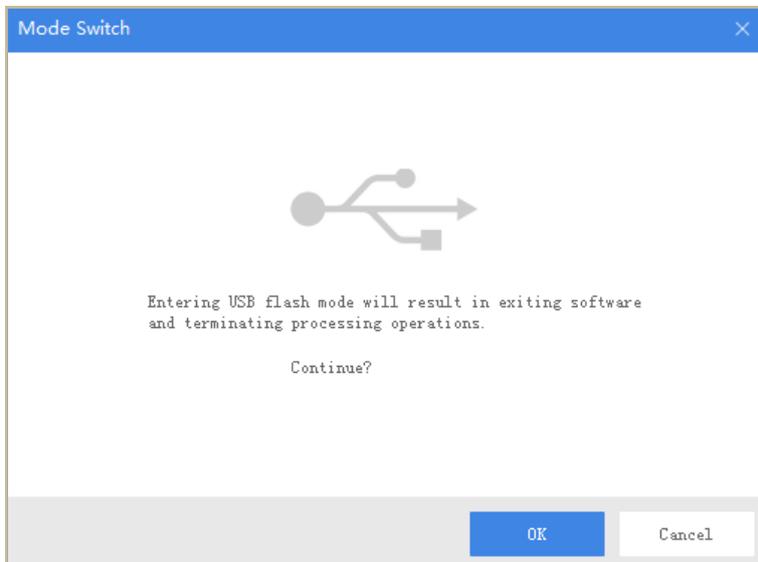

Figure 7. 17 Dialog Box

4. Enter Computer window to view the body camera. It will be recognized like an USB flash disk.

Figure 7. 18 Devices with Removable Storage

5. Double-click the disk to enter it and operate files.

7.5 Device Configuration

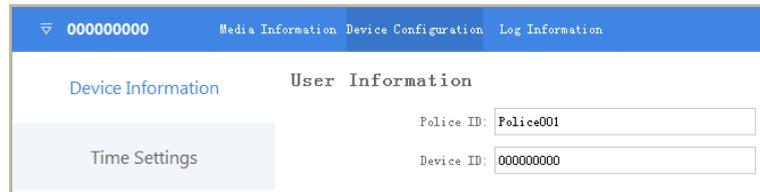

7.5.1 User Information Settings

Purpose:

You can customize the police ID and device ID.

Steps:

1. Click the **Device Configuration** tab, and click **Device Information** item in the left menu list.

The screenshot shows a web interface with a blue header bar containing a dropdown menu with '00000000' and tabs for 'Media Information', 'Device Configuration', and 'Log Information'. On the left, there is a vertical menu with 'Device Information' (selected), 'User Information', and 'Time Settings'. The main content area is titled 'User Information' and contains two input fields: 'Police ID' with the value 'Police001' and 'Device ID' with the value '00000000'.

Figure 7. 19 User Information

2. You can edit the **Police ID** and **Device ID**.

- Device ID cannot be longer than 32 characters.
- Police ID cannot be longer than 10 characters.

3. Click **Save** to save the settings.

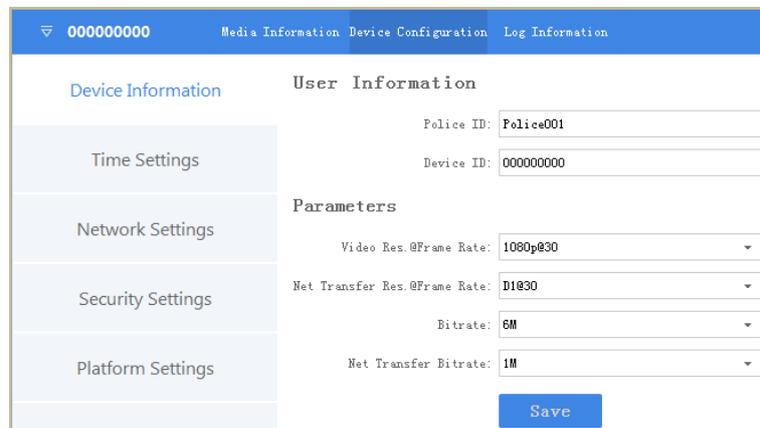

7.5.2 Encoding Parameters

Purpose:

You can set the parameters for video, including resolution, frame rate, bitrate, and so on.

Steps:

1. Click the **Device Configuration** tab, and click **Device Information** item in the left menu.
2. Select **Video Res.@Frame Rate**, **Net Transfer Res.@Frame Rate**, **Bitrate**, and **Net Transfer Bitrate** from respective drop-down list.
3. Click **Save** to save the settings.

The screenshot shows the same web interface as Figure 7.19, but with the 'Parameters' section expanded in the left menu. The 'Parameters' section in the main content area contains four dropdown menus: 'Video Res.@Frame Rate' (set to '1080p@30'), 'Net Transfer Res.@Frame Rate' (set to 'D1@30'), 'Bitrate' (set to '6M'), and 'Net Transfer Bitrate' (set to '1M'). A blue 'Save' button is located at the bottom right of the form.

Figure 7. 20 Encoding Parameters

7.5.3 Time Synchronization

Purpose:

You can synchronize device time with your set time or network time.

Steps:

1. Click the **Device Configuration** tab, and click **Time Settings** item in the left menu.

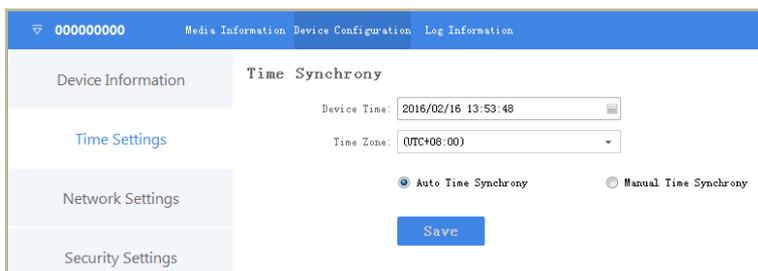

Figure 7. 21 Time Settings

2. You can select time synchronization type as **Auto Time Synchrony** or **Manual Time Synchrony** by checking corresponding checkbox.
 - **Auto Time Synchrony:** If selected, Device Time isn't configurable. Assistant will synchronize the device time with your computer time.
 - **Manual Time Synchrony:** If selected, you can synchronize device time according your custom time.
3. If Manual Time Synchrony is selected, select the **Device Time** and **Time Zone** according to your needs.
4. Click **Save** to save the settings.

7.5.4 Wi-Fi Parameters

Purpose:

You can access internet by connecting to a Wi-Fi. Wi-Fi parameters can only be configured in assistant.

Steps:

1. Click the **Device Configuration** tab, and click **Network Settings** item in the left menu list.
2. Check the checkbox of **Enable**.
3. Input **SSID** and **Key** of Wi-Fi signal you want to connect in text fields.
4. Click **Save** to save the settings.

Figure 7. 22 Wi-Fi Parameters

7.5.5 Security Settings

STRONG PASSWORD RECOMMENDED—We highly recommend you create a strong password of your own choosing (Using a minimum of 8 characters, including at least three of the following categories: upper case letters, lower case letters, numbers, and special characters.) in order to increase the security of your product. And we recommend you reset your password regularly, especially in the high security system, resetting the password monthly or weekly can better protect your product.

Steps:

1. Click the **Device Configuration** tab, and click **Security Settings** item in the left menu.
2. Input **Current Password** and **New Password**.

Password can only contain the number, instead of the letter and the symbol.

3. Click **Save** to save the new password.

The screenshot shows a web interface for a device. At the top, there are tabs for 'Media Information', 'Device Configuration', and 'Log Information'. On the left, there is a sidebar menu with 'Device Information', 'Time Settings', 'Network Settings', and 'Security Settings'. The 'Security Settings' section is active, displaying a 'Change Password' form. The form includes two input fields: 'Current Password:' and 'New Password:'. Below these fields is a blue 'Save' button.

Figure 7. 23 Security Settings

7.5.6 Platform Settings

Purpose:

You can log in device via iVMS, to monitor device, receive alarms, and so on.

Steps:

1. Click the **Device Configuration** tab, and click **Platform Settings** item in the left menu.

The screenshot shows the 'Platform Parameters' form. It features a checkbox labeled 'Enable' which is checked. Below it are two radio buttons: 'IP' (selected) and 'Domain name'. There are three input fields: 'IP:' with the value '0.0.0.0', 'Port:' with the value '7660', and 'Device ID:'. A blue 'Save' button is located at the bottom of the form.

Figure 7. 24 Platform Settings

2. Check the checkbox of **Enable** to enable platform connection.
3. Select address type as **IP** or **Domain Name**.
4. Edit **IP/Domain Name**, **Port**, and **Device ID**.
 - **IP/Domain Name:** The IP address/Domain Name of platform server you want to connect.
 - **Port:** The port of platform. The default port of iVMS is 7660.
 - **Device ID:** When adding device via platform, the ID is needed. It is device's unique identification.

7.5.7 Formatting

Purpose:

Format helps you to clear all data saved in device. It's not recommended to format the body camera like the way you format USB flash disk, or the body camera will fail to recognize the memory.

Steps:

1. Click the **Device Configuration** tab, and click **System Settings** item in the left menu list.
2. Click the **Format** button.

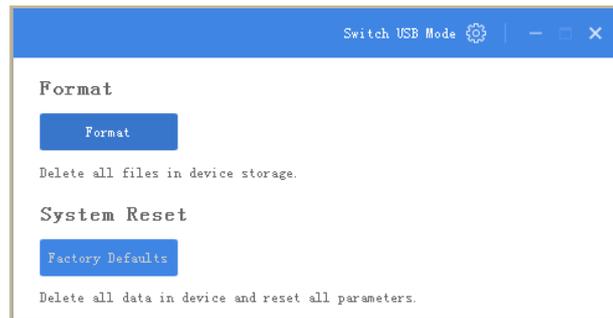

Figure 7. 25 Formatting

3. Input device password in the text field and click **OK** to start formatting.

Figure 7. 26 Format Device

7.5.8 System Resetting

Purpose:

You can reset all parameters to default settings by resetting system.

Steps:

1. Click the **Device Configuration** tab, and click **System Settings** item in the left menu.
2. Click the **Factory Defaults** button.

Figure 7. 27 System Reset

3. Input device password in the text field and click **OK** to start resetting.

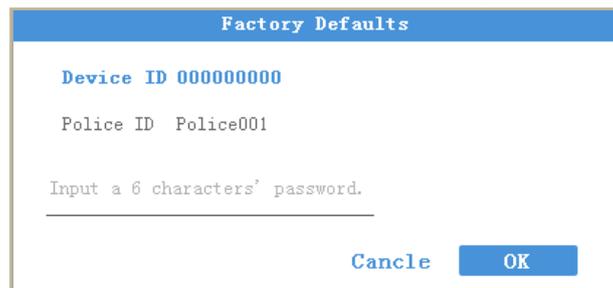

Figure 7. 28 Factory Defaults

7.6 Log Operations

Purpose:

By searching logs, you can review the history device status, device operation, and so on.

Steps:

1. Click the **Log Information** tab.

No.	Time	Details
01	2014-01-01 - 00:00:01	开机
02	2014-01-01 - 00:00:01	Startup
03	2014-01-01 - 00:00:02	Startup
04	2014-01-01 - 00:00:03	Startup

Figure 7. 29 Log Information

2. To search logs in a specified duration, do following steps:
 - 1) Edit the log's start time and end time.

Figure 7. 30 Search Condition

- 2) Click the **Search** button to start search. The matched logs will be listed.
3. To export searched logs, do following steps:
 - 1) Search the logs you want to export.
 - 2) Click the **Export** button to export them.

The exported logs are saved in the set assistant's log saving path and are saved in .txt format.

4. To clear logs, do following steps:
 - 1) Search the logs you want to clear.
 - 2) Click the **Clear** button to clear them.

7.7 Assistant File Saving Path

Purpose:

You can customize the local file and log file saving path.

Steps:

1. Click the  icon in the top right corner of assistant window.
2. Click the  icon to customize Local File Saving Path and Log Saving Path.
3. Click **Save** to save the settings.

Figure 7. 31 Local Configuration

7.8 Upgrading Device

Purpose:

It is recommended to upgrade device with the help of professional technical support.

Steps:

1. Switch to USB mode. For detailed steps, refer to *7.4.2 File Operation in USB Mode*.
2. Enter the Removable Disk of body camera through Computer.
3. Copy the upgrade file into the removable disk.
4. Reboot the body camera.
5. Enter the System Setting in LED menu.
6. Press Δ/∇ to position the cursor on **System Upgrade** item. And press \leftarrow to start upgrading.

- Dock station can upgrade body camera after connection.
- Body camera can be upgraded by importing configuration files from dock station.

7.9 Exit Assistant

Steps:

1. Click the ∇ button in the top left corner.
2. To exit the assistant, click **Exit** icon.
3. To switch to other devices, click **Switch Device** icon.

Figure 7. 32 Exit and Switch Device

Chapter 8 Troubleshooting

- **Unable to start up.**

- a) **Possible Reason:** Device runs out of power.
Solution: Get device be charged.

- **Unable to start recording.**

- a) **Possible Reason:** Memory is full.
Solution: Back up device and clear the memory.
- b) **Possible Reason:** Formatting memory error.
Solution: Format the memory via assistant. For detailed steps, refer to *7.5.7 Formatting*.

- **Unable to log in.**

- a) **Possible Reason:** Password error.
Steps: Reset your password. For detailed steps, refer to *7.5.8 System Resetting*.
- b) **Possible Reason:** Device is abnormal.
Steps: Reboot device.
