iTEC on Access®

Turn on your device:

Open the iTEC on Access app, tap the menu icon in the upper left corner, tap "add device". Then touch the keypad on the lock/device to activate it. If the lock/device has been activated in search mode, it will appear available and can be added via the "+" icon.

Change the admin code:

- 1) Turn on the iTEC on Access APP.
- 2) Select the lock/device to create a key.
- 3) Touch the "gear" symbol.
- 4) Basic Settings.
- 5) Option "Admin Code" and follow the instructions.

Send the electronic keys:

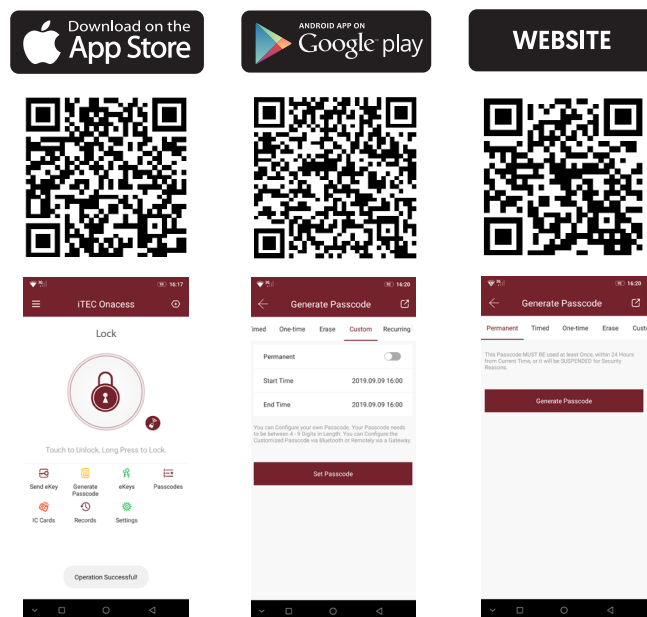

- 1) Open the iTEC on Access APP.
- 2) Select the lock/device to create a key.
- 3) Tap "key". Choose a temporary key or a permanent key.
- 4) Enter the person's mobile number/email and tap "send".

Submit passwords:

- 1) Open the iTEC on Access APP.
- 2) Select the lock/device to create a password.
- 3) Tap on "access code". Choose a validity period (single, minute(s), hour(s), day(s), month(s), permanent).
- 4) Tap the "generate" button to create a code.
- 5) Tap "send text message" to send the code to the user.

Create card:

- 1) Open the iTEC on Access APP.
- 2) Select the lock/device to create a card.
- 3) Touch the "IC card" icon.
- 4) Add card.
- 5) Choose the option "permanent, programmed or cyclic".
- 6) Click "ok" and follow APP instructions.

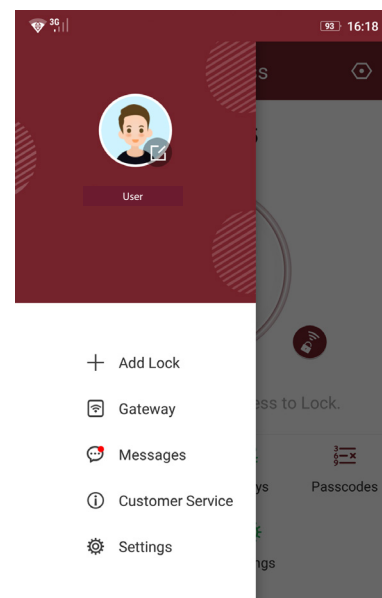

Create fingerprint:

- 1) Open the iTEC on Access APP.
- 2) Select the lock/device to create a fingerprint.
- 3) Tap the "fingerprints" icon.
- 4) Add fingerprint.
- 5) Follow the instructions.

Open and close:

- 1) Turn on the iTEC on Access APP.
- 2) Select the lock/device you want to open and tap the padlock icon.
- 3) Check Pop Up on your mobile.
- 4) Observe the lock/device to be opened.
- 5) Tap and hold the device icon, and it will close. If you set automatic closing, after a certain set time, it will lock automatically.

Receive a message text when one of your family members comes home.
